

RAMBO™

Subject: Mad Dog™ (legal name unknown)

Distinguishing Physical Characteristics: 6' 0"; 215 lbs., Orange mohawk haircut; S.A.V.A.G.E. emblem tattooed on chest; wears studded wristbands and bear-claw necklace

Military Record: No military record; he does have an extended criminal record, however, having served time for theft, reckless driving and arson

Military Specialty: MAD DOG is able to travel easily throughout crowded cities on his S.A.V.A.G.E. Strike Cycle. GENERAL WARHAWK™ uses him as an urban warrior; terrorist tactics, kidnapping, and high-speed chases are his specialties

Weapons: Presumed expert in use of the following weapons:

Ithaca Stakeout Shotgun (U.S.A.)

Bullwhip (U.S.A.)

Dagger (Eng.)

MAD DOG carries the weapons that would be associated with an urban warrior. He tells his pack of S.A.V.A.G.E. Strike Bikers that he wrestled with a rattlesnake to get his bullwhip.

From the Files of The FORCE OF FREEDOM™ (Authorized Personnel Only!)

MAD DOG travels in and about the urban centers of the world, spreading terror and disbelief wherever he goes. He started his criminal career at the age of 7 by stealing his first motorcycle. Since then he's stolen 28 bikes and spent time in jail for each crime.

MAD DOG is a total barbarian. His allegiance to GENERAL WARHAWK is questionable, but THE GENERAL likes his outrageous style anyway. WARHAWK just doesn't want to be around when MAD DOG is collared by RAMBO, because the guy really foams at the mouth!

MAD DOG leads a pack of S.A.V.A.G.E. Strike Bikers. They live in vacant, condemned buildings and travel throughout an urban network of sewers. When they need to hide out, they just drop down the nearest manhole cover. These underworld criminals would do nothing better than to leave their tread marks all over RAMBO and THE FORCE OF FREEDOM!

Battle-Action, Fast-Draw Shotgun!

The butt stock of the conventional Ithaca Shotgun has been replaced by a pistol grip on MAD DOG's weapon. It is fed by a 5-shot tubular magazine. It is ironic that MAD DOG's gun was originally designed to be used against criminals. (Pressing the switch releases the fast-draw shotgun!)
