

5744 The Transformers® Spy Assortment

Age: 5 and up

PK: 12

Clones keep the enemy guessing! They look identical, but don't be deceived.

- The two *identical* Decepticon® robots transform into different, sinister animals, "Pounce" into a puma and "Wingspan" into a hawk.
- The two *identical* Autobot® robots transform into different, high-powered vehicles — "Cloudraker" into a jet and "Fastlane" into a dragster.

Joining the Clones is the Double Spy! He transforms into the Autobot robot, Punch, then disguises himself and transforms into a Decepticon robot, Counterpunch!

The Clones and the Double Spy come with their own weapon, unique bio card, Tech Specs chart and decoder.
