**6005 G.I. Joe® Hovercraft**

Plenty of "extras" give G.I. Joe the edge! Launch Joe out of the Hovercraft on the recon sled for a reconnaissance mission. Scout ahead on land with the special surveillance cycle. Lower the loading ramp . . . open the troop compartment . . . and four Joe team members move into action! "YO JOE!" Twin elevating cannons, two rotating machine guns and six depth charges provide the firepower to stop COBRA advances. Four mid-range missiles can be fired from two pivoting missile launchers. Four casters make it "hover" on land. Floats in water, too! The largest weapons vehicle in the G.I. Joe collection, the Hovercraft carries up to nine figures. Includes G.I. Joe pilot CUTTER. Other figures sold separately.
