

Atomic Arcade® Pinball TV

A pinball game that's so exciting, players will trade in their old flippers. The ball is propelled like an atomic particle into an atom. It caroms off the power bumpers as if it's in a magnetic field, setting off electronic bells and an automatic scoreboard. It's electronic excitement that's fast and furious. And what's more, a player doesn't have to go to an arcade to get it. The arcade comes to the player. Uses 5 "D" batteries, not included. It'll make pinball wizards 6 and up tilt with pleasure.
