

The Evolution of the Turtles...

A boy's bowl of pet turtles fall into the stench of an underground city sewer. They land on Splinter, a penniless but powerful Ninja master who lives in the muck.

Splinter's enemy, Shredder (leader of the evil Foot clan), pours a disgusting green ooze over Splinter (and accidentally, the Turtles!), hoping to zap him dead.

TEENAGE MUTANT NINJA TURTLES™

Instead, the Turtle pets mutate into Turtle teens, and Splinter turns into the biggest rat ever to face a trap.

Splinter, the big cheese leader, teaches the Turtles the ways of the Ninja! Together they form a kick-stomping fighting team, for the side of good, against the deadly Foot clan! Get ready for the **TEENAGE MUTANT NINJA TURTLES!**

THE TURTLE GALLERY

Teenage Mutant Ninja Turtles... Introducing 10 wacky characters, each with their own distinct personality and weird sense of humor!

Our heroes, the fun-loving **Turtles**, led by four highly individual and funny hard shells — Donatello, Michaelangelo, Leonardo and Raphael. And their cohorts — Splinter the rat and the beautiful April O'Neil.

Fighting the evil **Foot Clan**, led by Shredder, the human cheese grater! His troops — the mummified Foot Soldiers, the punk pig Bebop and military rhino Rocksteady. It's definitely the weirdest cast of characters this side of New York City!
