NEW
6027 COBRA Rattler: Ground Attack Jet

The Rattler is COBRA's new super-destructive ground attack airplane. Three sets of combat rockets and six cluster bombs smash tanks, blow up bridges and attack G.I. Joe's Headquarters. Elevating dual 20mm cannons and rotating "Kerry" cannon supplement its winged explosives. Two canopies open to allow figures easy access to each highly-detailed cockpit. Jet engines and wings rotate 90° for simulated vertical take-off and landing. Includes retractable landing gear and free-rolling wheels as well as two removable battle-damaged fuselage panels. Includes COBRA pilot.

9 x 3 1/4 x 19 1/8"
WT.: 20 lbs.

PACK: 6
CU. FT.: 2.2

COBRA Commander had Destro design the ferocious Rattler—a low-flying, powerful attack jet.
