The Transformers® Triple Changer Assortment

5735

Triple Changers are *three* times the fun. These Decepticon infiltrators confuse the Autobot attempts to ferret out their ingenious plots of waste and destruction. Change, change—it's a robot! Change, change—it's a tank! Once again—and back to a plane. Blitzwing changes from tank to robot to plane, while Astrotrain transforms from space shuttle to robot to train.

Each Triple Changer is packaged with attachable weapons, character bio, Tech Specs chart and decoder. Special liquid crystal logo proves each Transformers' authenticity. Assortment includes six of each Triple Changer.
