Transforms from space station to robot and back! Omega Supreme is the ultimate Autobot defensive force and is as mobile as he is tough! He walks towards you and nothing stands in his way. He's equally as dangerous as a laser cannon tank and launch pad. Decepticons beware! As he drives along, his head bobs and light flashes! There he goes! The secret liquid crystal logo proves that he's a "true" Transformer! Includes attachable weapons, six track pieces, rocket with claw, Tech Specs chart and decoder, and more! Operates on two "AA" batteries (not included).
