CORVETTE BECOMES AN ARMED SEAPLANE

Anyone would like to have a Corvette, but how about a **MASK RAVEN** Corvette with a front end that automatically rotates 180°. The wheels fold in to become 360° particle blasters and the rear spoiler pops up to reveal turbo thrusters. With side panels that are really reverse gull wing doors, the **RAVEN** is now ready for both

air and sea attack. Its most powerful weapon is a total surprise, because immobilizer disks can be fired to incapacitate **VENOM** vehicles. **RAVEN** also comes with an articulated **CALHOUN BURNS** figure, the demolition expert on the **MASK** team. His removable **GULLIVER** mask pretends to enlarge or shrink objects and people. Ages 4 and up.
