KARATE CORVETTE VEHICLE

The *CHUCK NORRIS KARATE KOMMANDOS* don't just walk into action—they jump into this slick looking Corvette. More than a method of transportation, a press on the windshield releases the Onokamo fender blade to knock down enemies or ram through obstacles. Shinobi slicers shoot out from

the sides when the roll bar is triggered. And protection from the rear is no problem with the trampoline spoiler which can be pulled out and pressed to launch Shurekan star disks. The spoiler can also be used to eject any figure from the trunk lid—enemies tumble to danger, friends somersault into action. Ages 4 and up. Action figures sold separately.
