

## Stomper® Pedal 4 x 4™

1863

Here's the real feel and look of a hot off-road vehicle! The STOMPER® combines Coleco POWER CYCLE™ performance and speed with distinctive 4 x 4 styling. The big 13" wheel under the hood features the same direct drive pedal action of a POWER CYCLE™ to allow faster, easier pedaling, and smooth handling, too. Independent suspension front wheels go up and down to give STOMPER® drivers that realistic off-road sensation. The wide track wheel base is designed for comfort and stability, and a rear-mounted roll bar adds authenticity. The 3-position adjustable seat back allows custom-fit comfort for early drivers.

Ages 3 to 7 (Maximum weight 65 lbs.)

Pack: 1 Weight: 26 lbs. Cube: 6.19'
