

## Inspector Gadget™

INSPECTOR GADGET™ is back this year supported by 65 half hour television episodes to be seen across the country five days a week. Due to the popularity of the show, this cleverly designed action doll is in demand with both boys and girls five years of age and older. This amazing character has eight magic action features with twenty moving parts molded in colorful impact resistant plastic. There is no action doll on the market today with more play value assembled in such an attractive package. We feel so good about this item that we have developed a television campaign to tell the world about it.

You don't have to be a detective to know this one will be good. Order now.
