

Now The Battle Is In Your Hands!

On the distant planet Symbion™, a genetic experiment fails. Ghastly changes take place that cannot be stopped. The result? A world where insects grow to frightening proportions. A world where the inhabitants have taken on the awesome characteristics of insects. Where the good of the Shining Realm is locked in mortal combat with the evil of the Dark Domain.

Telepathically bonded in combat, Sectaurs™ Warriors join with their insect companions in the ultimate battle for survival.

Now that battle is in your hands!
