TRIBAL TOWER PLAYSET

Ages: 5 & Up

Which tribe will conquer this fortress of power? This 3-level playset features a rotating, removable top equipped with a "finger-flick" crossbow rock launcher and 2 snake catapults. Tie the string included to the crossbow and swing figures from level to level. The crossbow section is also removable and can be used as a tribal outpost.

The second level of the tower features a trapdoor that swings down to drop figures onto the base. The entire level also slides up and down to trap figures in the spinning "claw-tooth" cage below!

The base of the tower features an underground cave/dungeon that can hold up to 4 figures. Kids can display their collection of captured masks around the base of the tower.

(Masks and figures not included).
