

NEW
FOR 1986!

Claw Copter™

Canopy swings open!

Skull Copter™ & Claw Copter™ #5110

Galoob has 'em: the DEFENDERS of the EARTH™ choppers seen on the new hit TV cartoon show! Those D.O.E. heroes are seen everyday flying these hot warbirds into all sorts of death defying action.

Each one has all the detailing you would expect: check out the cockpit and the real opening canopy for fast escapes.

Activating the kid-powered trigger makes the rotors spin and the huge robotic talons grasp or release their prey.

Kids can imagine the Phantom™ aboard his skull styled chopper dropping equipment to the stranded D.O.E. team.

Or load up the D.O.E. futuristic styled CLAW COPTER™ for the next mission against Ming the Merciless™
