

**MANGLOR MOUNTAIN™
VOLCANIC LAVA PIT
FORTRESS™ PLAYSET Includes
MANGLORD™ ACTION ALIEN**

MANGLORD, master of MANGLOR MOUNTAIN™, is a 7" sticky-icky creature from another dimension! He can withstand being rolled into a ball, stick to almost anything, and can even be mangled to take on different forms. If his arms and legs get

pulled off, they can be put back on again! Like all Manglors figures, he's made from the strangest stuff on earth!

MANGLOR MOUNTAIN™, the Volcanic Lava Pit Fortress environment/playset, is styled from the depths of the earth, a crystal-like cauldron atop a rocky mountain fortress, filled with "Mang-Lava™", an icky ooze from the inner earth. Press down on the

Gargoyle's tongue to bubble and gurgle up the "Iron Maiden" cage in which Manglord is imprisoned—out of his environment and into YOURS! Comes with MANGLORD figure and a bag of non-toxic, water-based "Mang-Lava".
